

20 **CLAUDE** FEATURES MOST PEOPLE NEVER USE

01

RENDER

Turn your ideas into interactive apps, websites, dashboards, documents, and calculators instead of plain text responses.

set render workspace to Docs Samples

I'll help you select the "Docs Samples" workspace in Render. First, let me list the available workspaces to confirm this one exists.

> Called list_workspaces ✓

I found the "Docs Samples" workspace in the list. Now I'll select it using its ID.

> Called select_workspace ✓

Setup –

Open Claude → Enable Artifacts → Ask Claude to build your idea as an Artifact.

02

Ask

Use Claude as your everyday AI assistant for writing emails, brainstorming ideas, summarizing documents.

✱ Good evening, Awa k penn

How can I help you today?

+

Sonnet 5 Medium ▾  

 Learn

 Code

 From Drive

 From Calendar

 From Gmail

Setup –

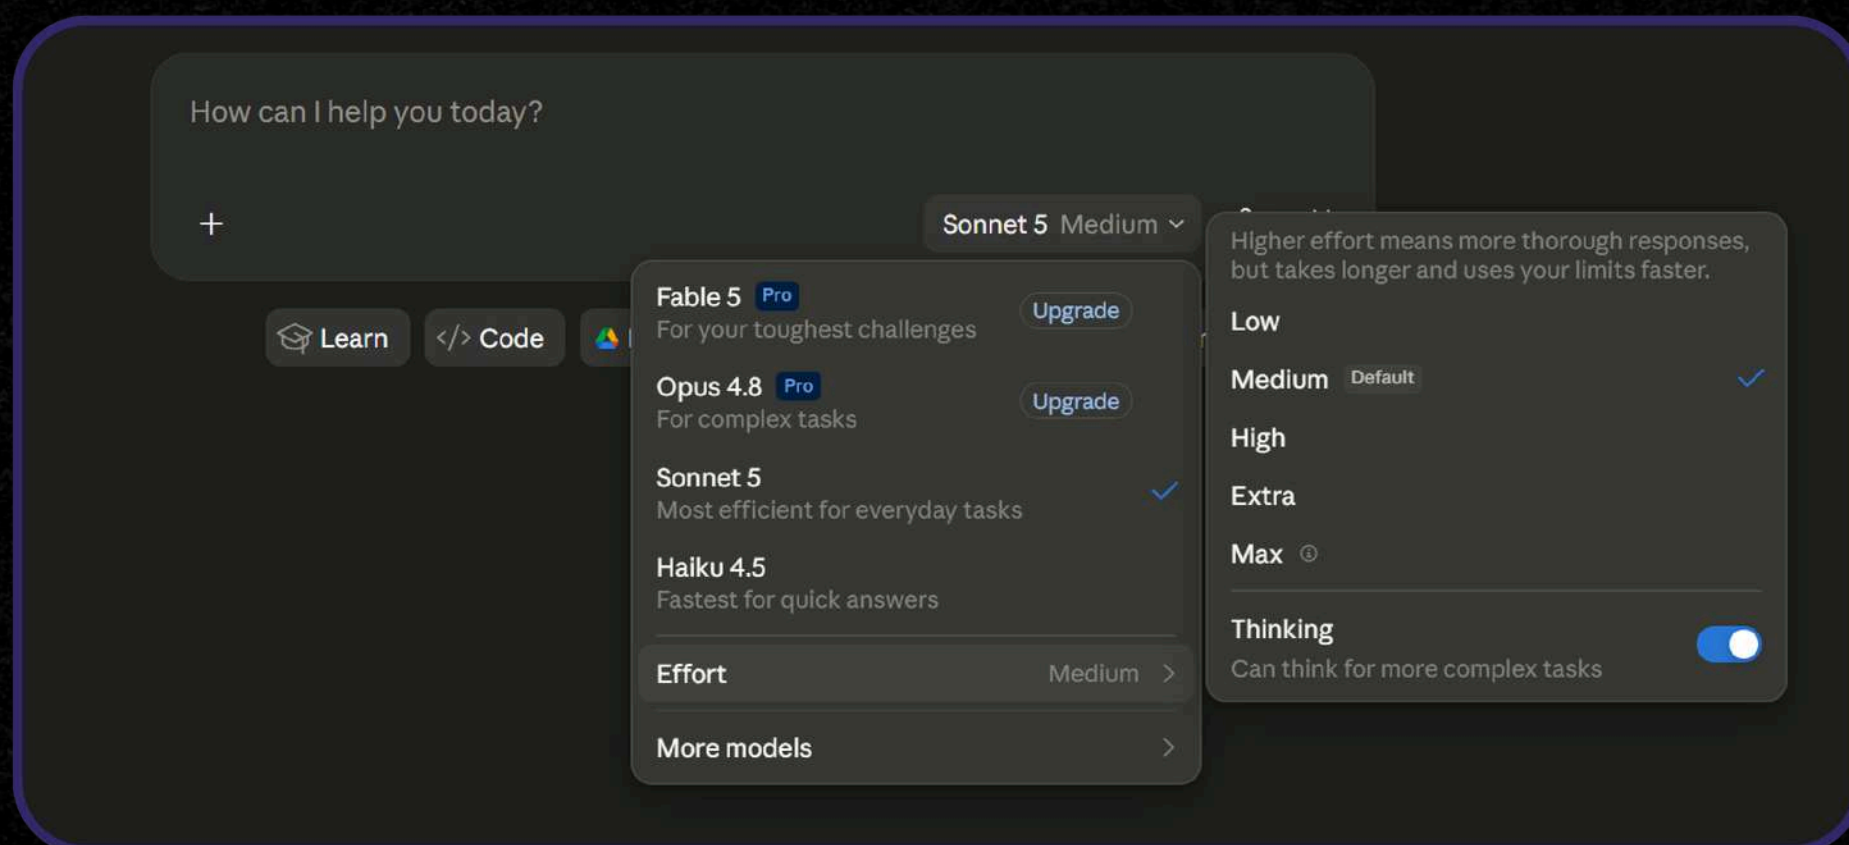

Open a new chat and describe exactly what you need in plain English.

03

Think

Extended Thinkinglets Claude spend more time solving difficult problems, making it ideal for coding and complex reasoning.

Setup –

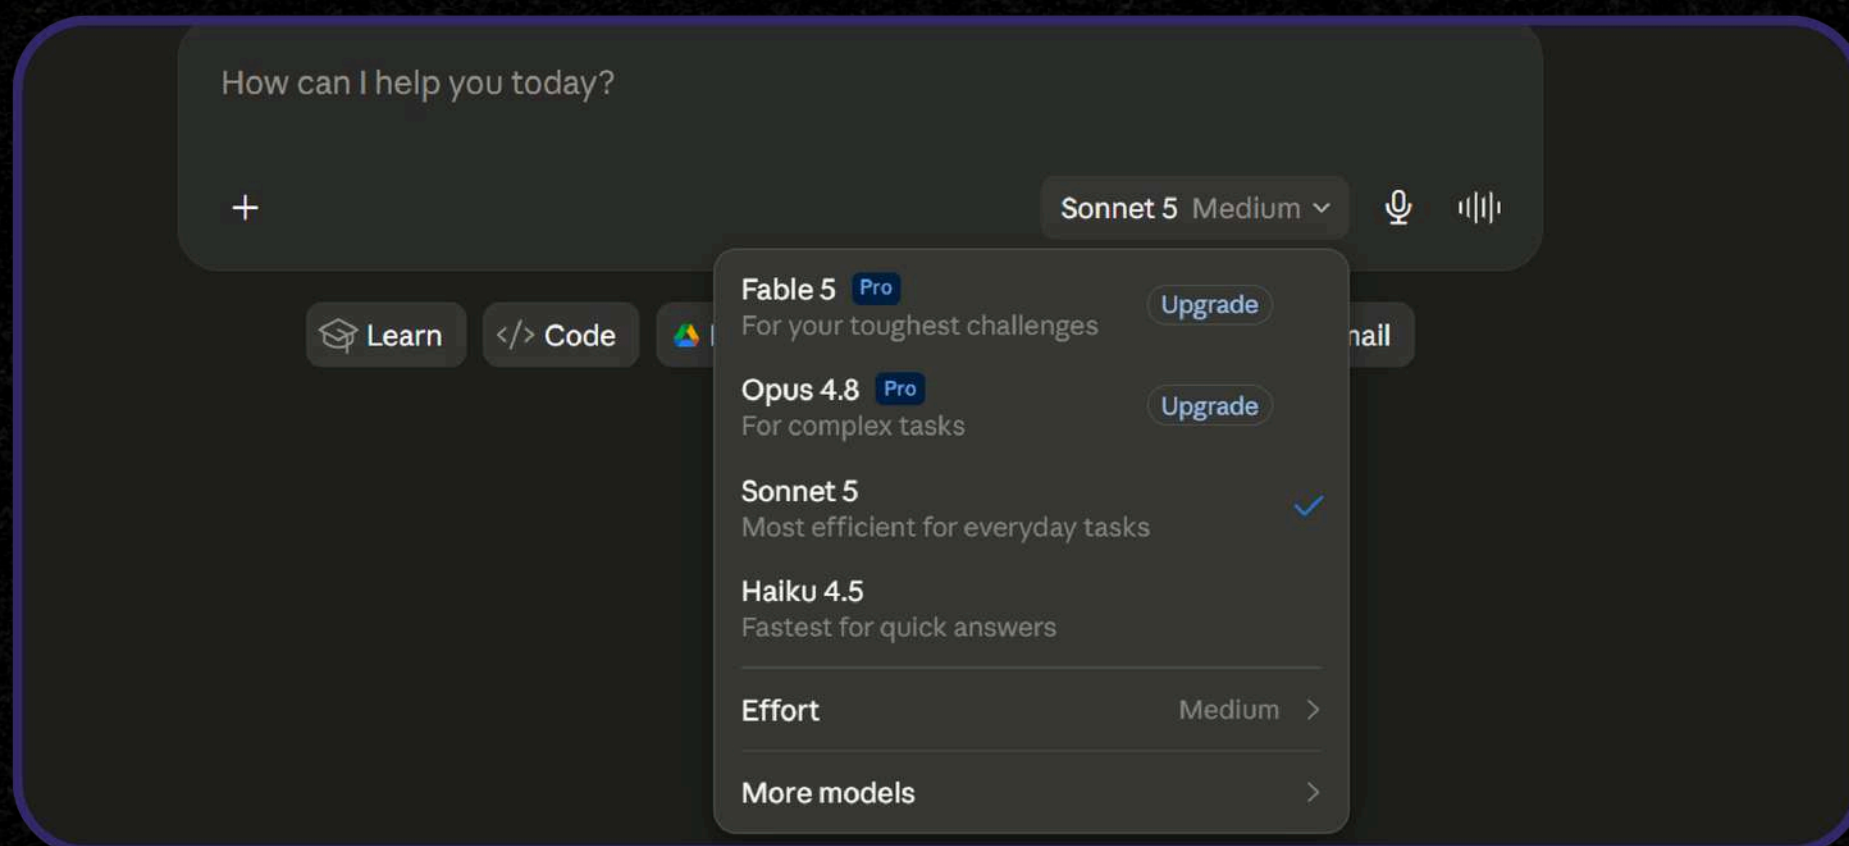

Select Think (Extended Thinking) before sending your prompt.

04

Speed

Sonnet4.6isoptimizedfor fast responses while maintainingexcellent coding, writing, and reasoning performance for daily work.

Setup –

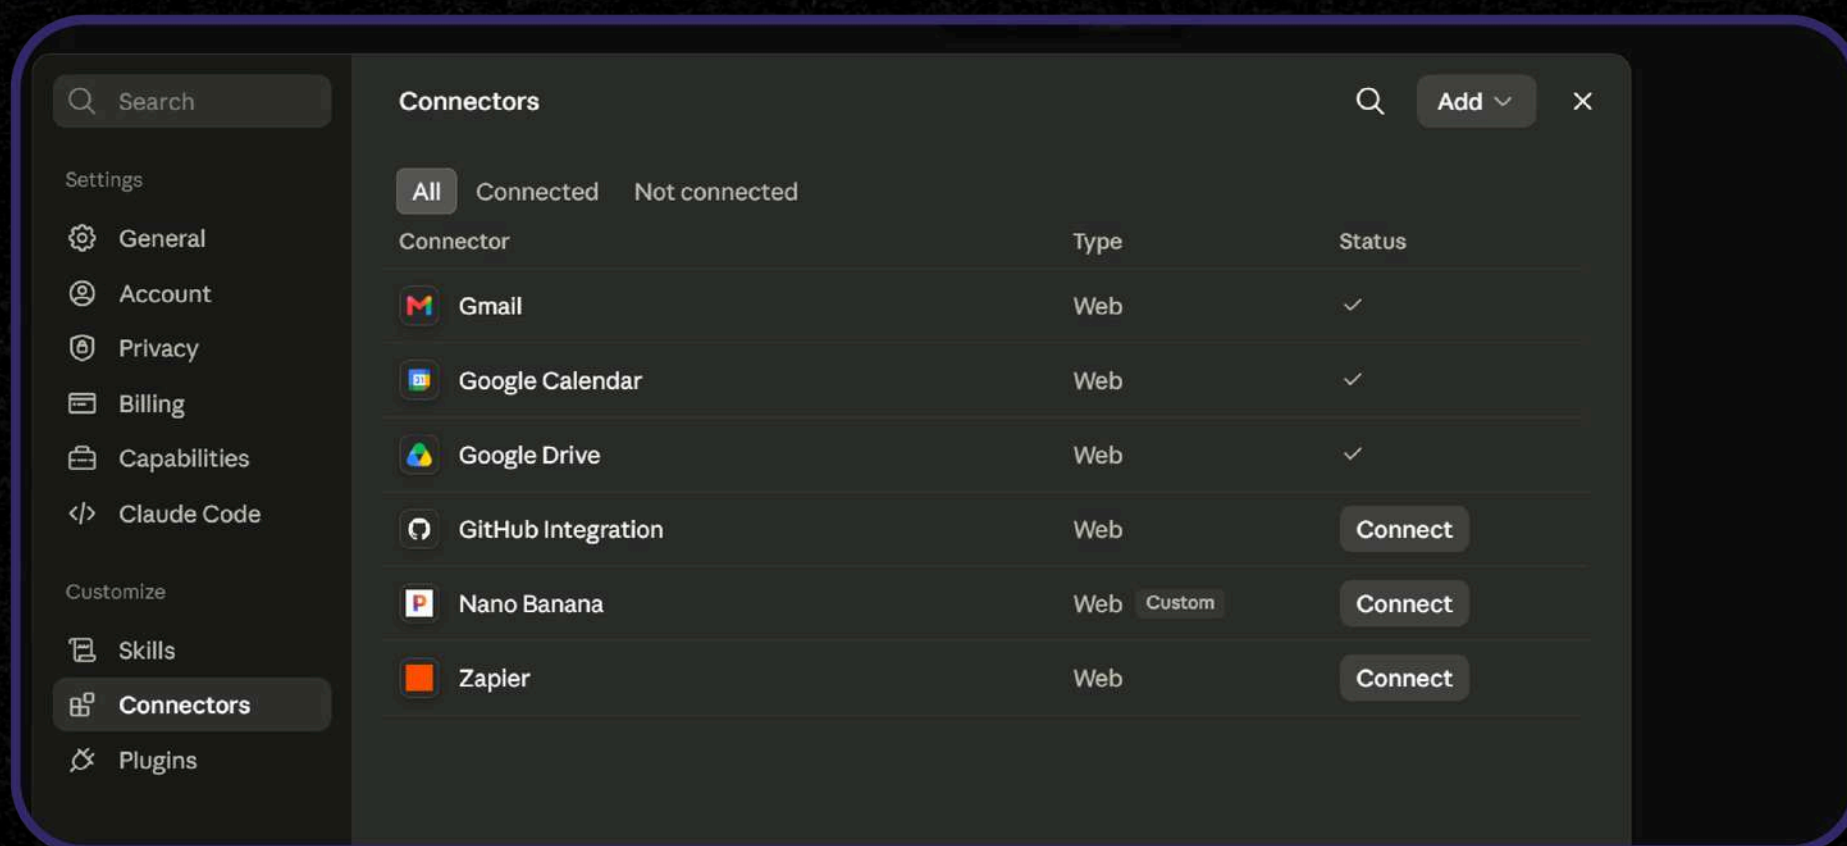

Choose Sonnet 4.6 from the model selector at the top of Claude.

05

Stack

Connect Claude with your favorite tools so it can work with your projects and workflows without constantly switching apps.

Setup –

Open Settings → Integrations and authorize the tools you want Claude to access.

06

Reason

Ask Claude to carefully evaluate multiple options before responding when accuracy matters more than speed.

reason

Deliberated on clarifying core logic concisely

Here's the core reason for each, in one line:

Content Marketing — Wins long-term because it's a compounding asset: once published, it keeps generating traffic and leads without ongoing spend, unlike ads that stop the moment you stop paying.

Paid Advertising — Wins for speed because it's the only strategy that delivers measurable results in days, making it ideal when you need quick traction (launches, testing demand).

Influencer Marketing — Wins for trust-transfer because it borrows an already-engaged audience's confidence in a creator, which is hard to replicate with owned content or cold ads.

Bottom line reason for recommending Content Marketing overall: it's the only one that

Setup –

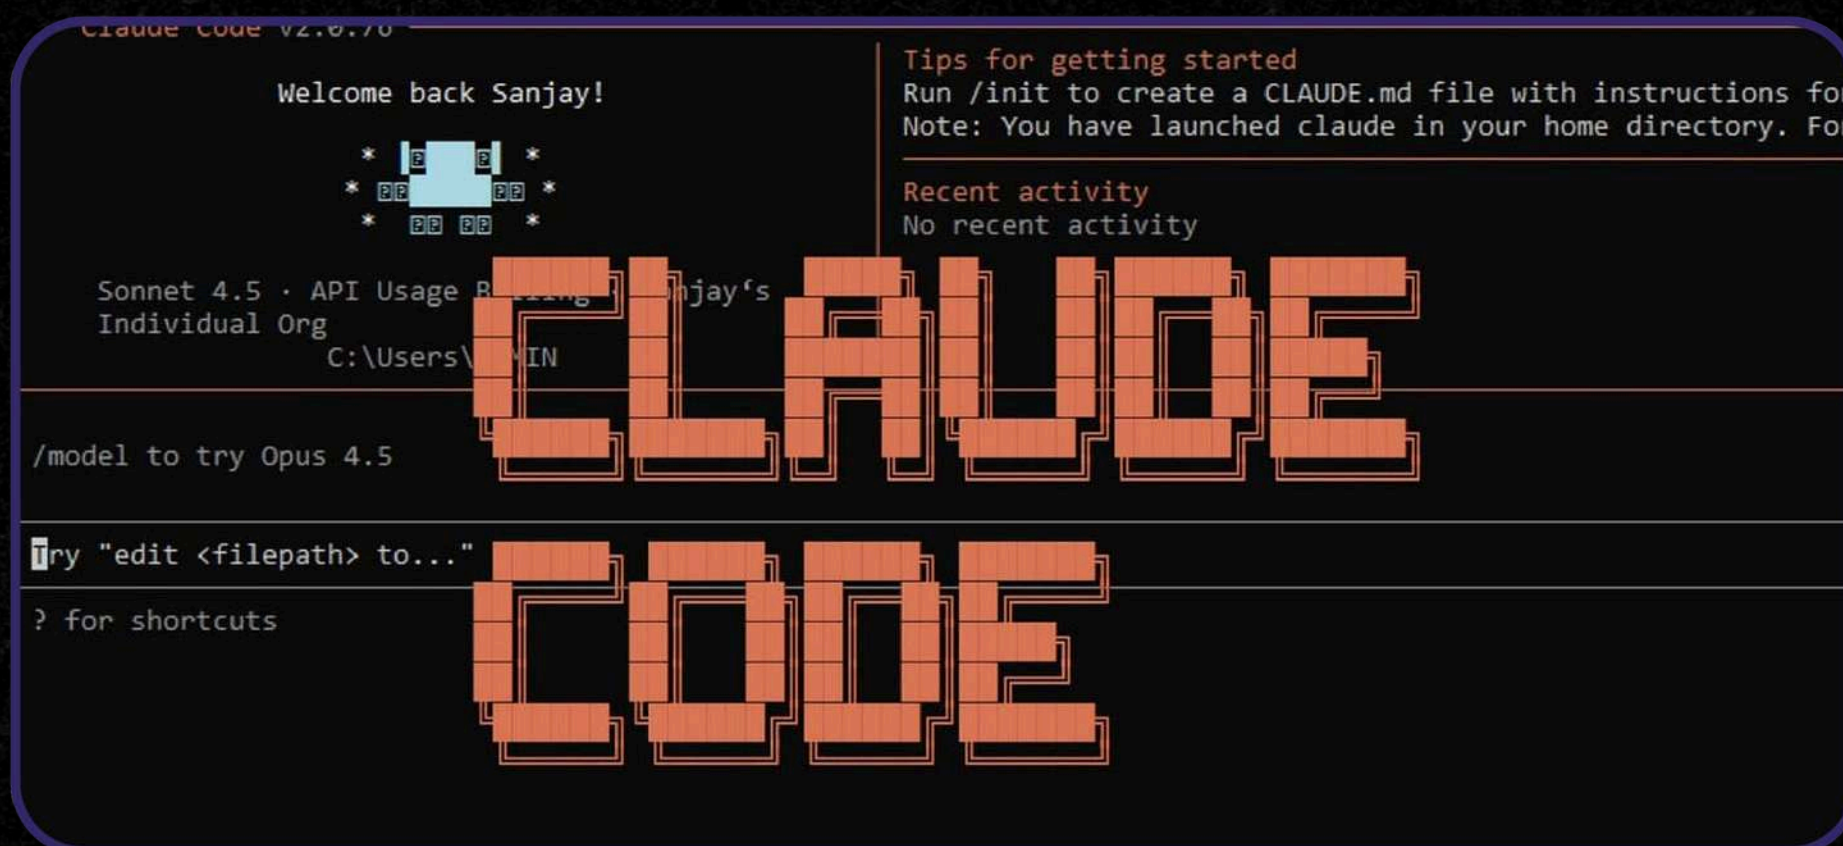

Tell Claude to explain its reasoning and compare possible solutions before answering.

07

Build

ClaudeCode can generate complete applications, websites, dashboards, Chrome extensions, and AI tools from a single prompt.

Setup -

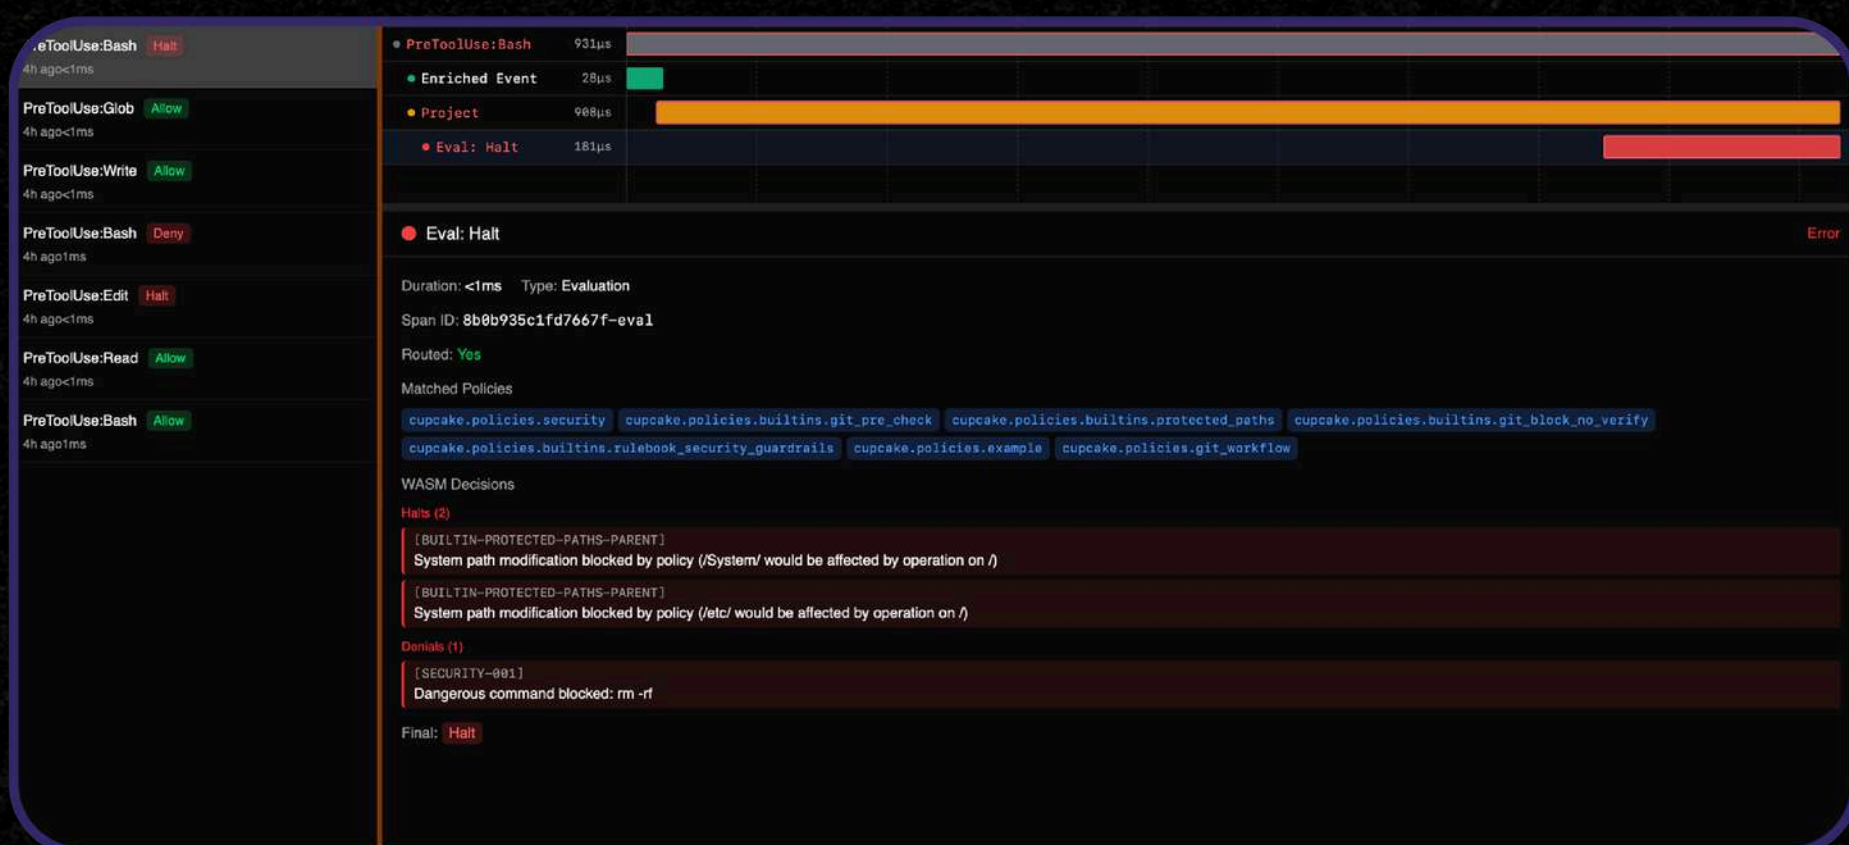

Open Claude Code and describe the application you want to build.

08

Ship

Move from prototype to production by asking Claude to debug, refactor, optimize, and prepare your project for deployment.

Setup –

Open your project in Claude Code and ask it to review the entire codebase.

Model

Upload Excel or CSVfiles and let Claude discover trends, clean data, generate formulas, and explain insights in plain English.

Setup -

Upload your spreadsheet directly into the chat.

Slides

Generate complete presentations with structured content, speaker notes, and polished layouts in just a few minutes.

Setup –

Describe your presentation topic, audience, and preferred number of slides.

11

Mockup

Design websites, mobileapps, dashboards, and product interfaces without opening a design tool.

Setup –

Describe your product, audience, and preferred design style.

12

Browse

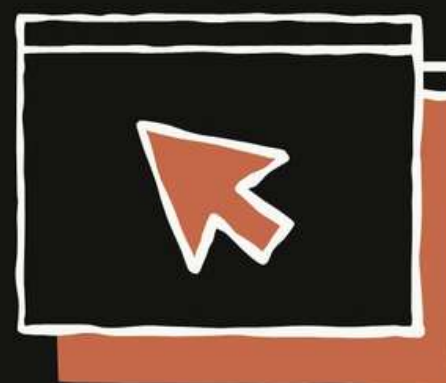

Browse the web directly from Claude to research recent news, verify facts, and gather up-to-date information.

A helping hand across all your tabs

Claude for Chrome can navigate, click, and fill forms in your browser. Works with Claude Code, Cowork, and Claude Desktop for end-to-end workflows. Available in beta on all paid plans.

Add to Chrome

▶ Watch demo

Setup –

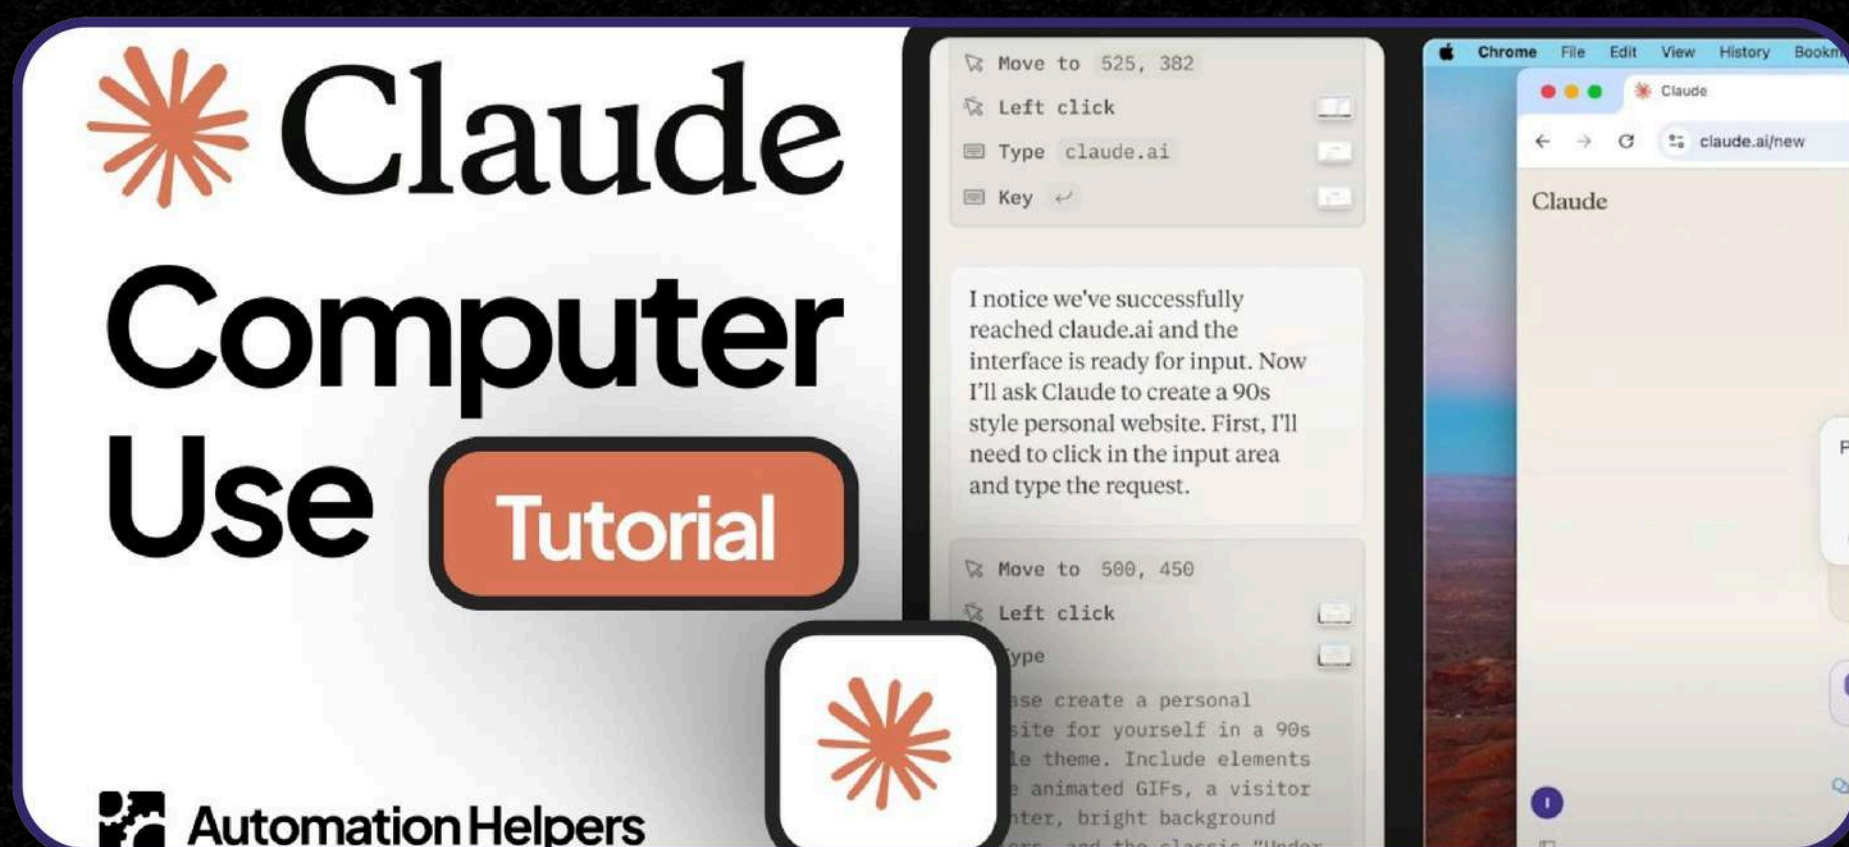

Enable Web Search and ask Claude to search before answering.

13

Click

Computer Use allows Claude to interact with websites by clicking buttons, filling forms, and navigating web pages for you.

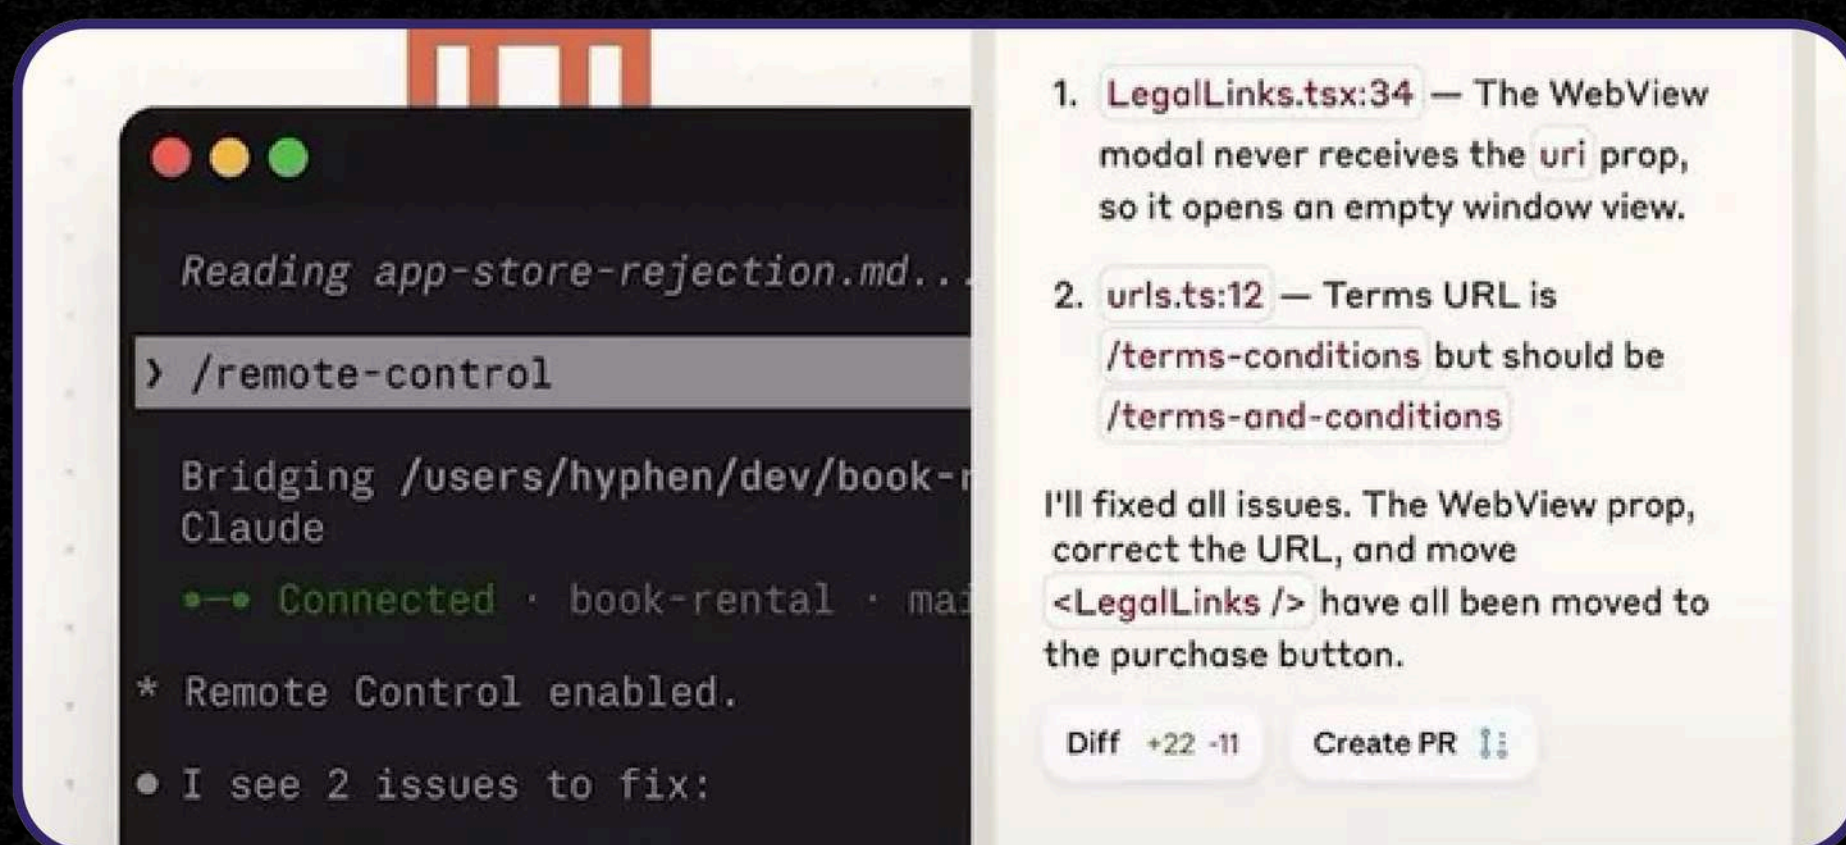

Setup –

Launch a Computer Use session and give Claude the task you want completed.

Remote

Dispatch lets Claude run long tasks in the background so you don't have to wait for every workflow to finish.

Setup –

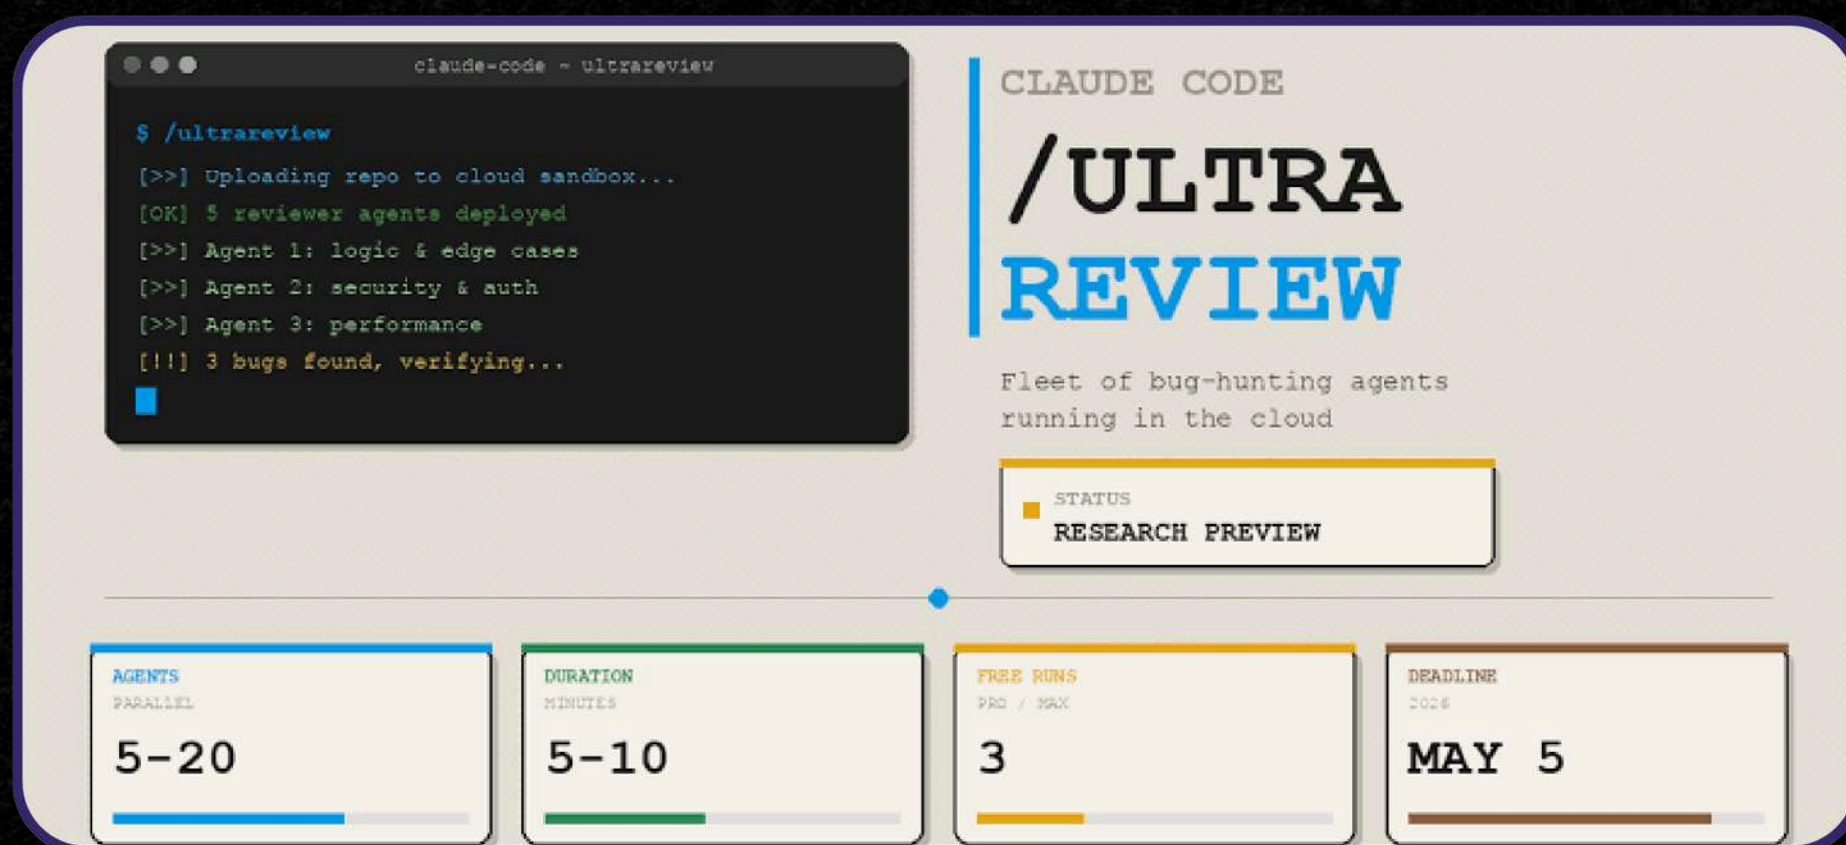

Create a Dispatch task and assign the work you want Claude to complete remotely.

15

Search

Search the web without leaving Claude to find documentation, APIs, tutorials, and the latest industry updates.

Setup -

Ask Claude to search online before answering your question.

16

Investigate

Deep Research combines dozens of sources into detailed reports with summaries, comparisons, and actionable insights.

✱ Good afternoon, Alex

Hey, I'm planning to take a 3-month sabbatical to hike the Appalachian Trail on May 1. Draft an out of office plan using info from my email, calendar, and docs. Can you please also search for spots where I'll have good service to check in with my colleagues?

Claude 3.7 Sonnet

Write

Code

Strategize

Claude's choice

Setup –

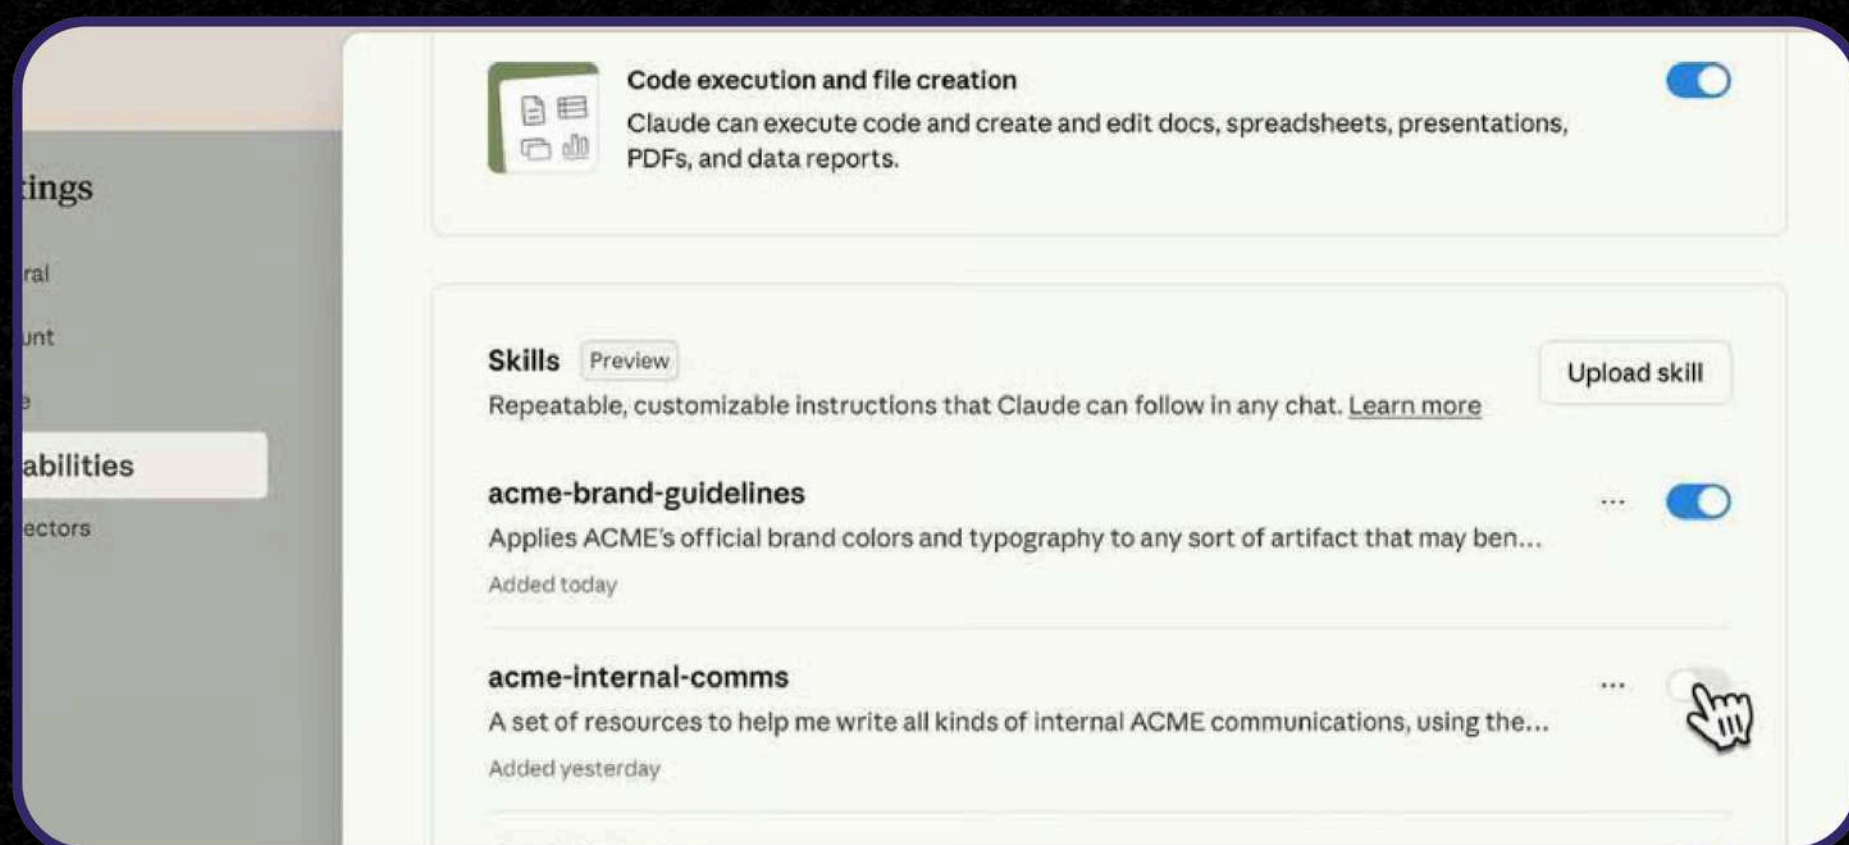

Start a Research task and clearly define the topic you want investigated.

17

Trigger

Skills let you save expert personas and reusable workflows so Claude follows the same instructions every time.

Setup –

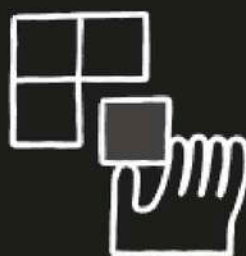

Create a new Skill with your preferred prompts and workflow.

18

Persist

Projects keep your files, brand guidelines, instructions, and conversations together so Claude always has the right context.

Looking to start a project?

Upload materials, set custom instructions, and
organize conversations in one space.

New project

Setup –

Create a new Project and upload your documents, assets, and reference materials.

Automate

ScheduledTaskslet Claude perform recurring work likedailysummaries,research updates, and regular reports automatically.

* Claude Code Docs

Claude Code on the web

Automate work with routines

Put Claude Code on autopilot. Define routines that run on a schedule, trigger on API calls, or react to G...

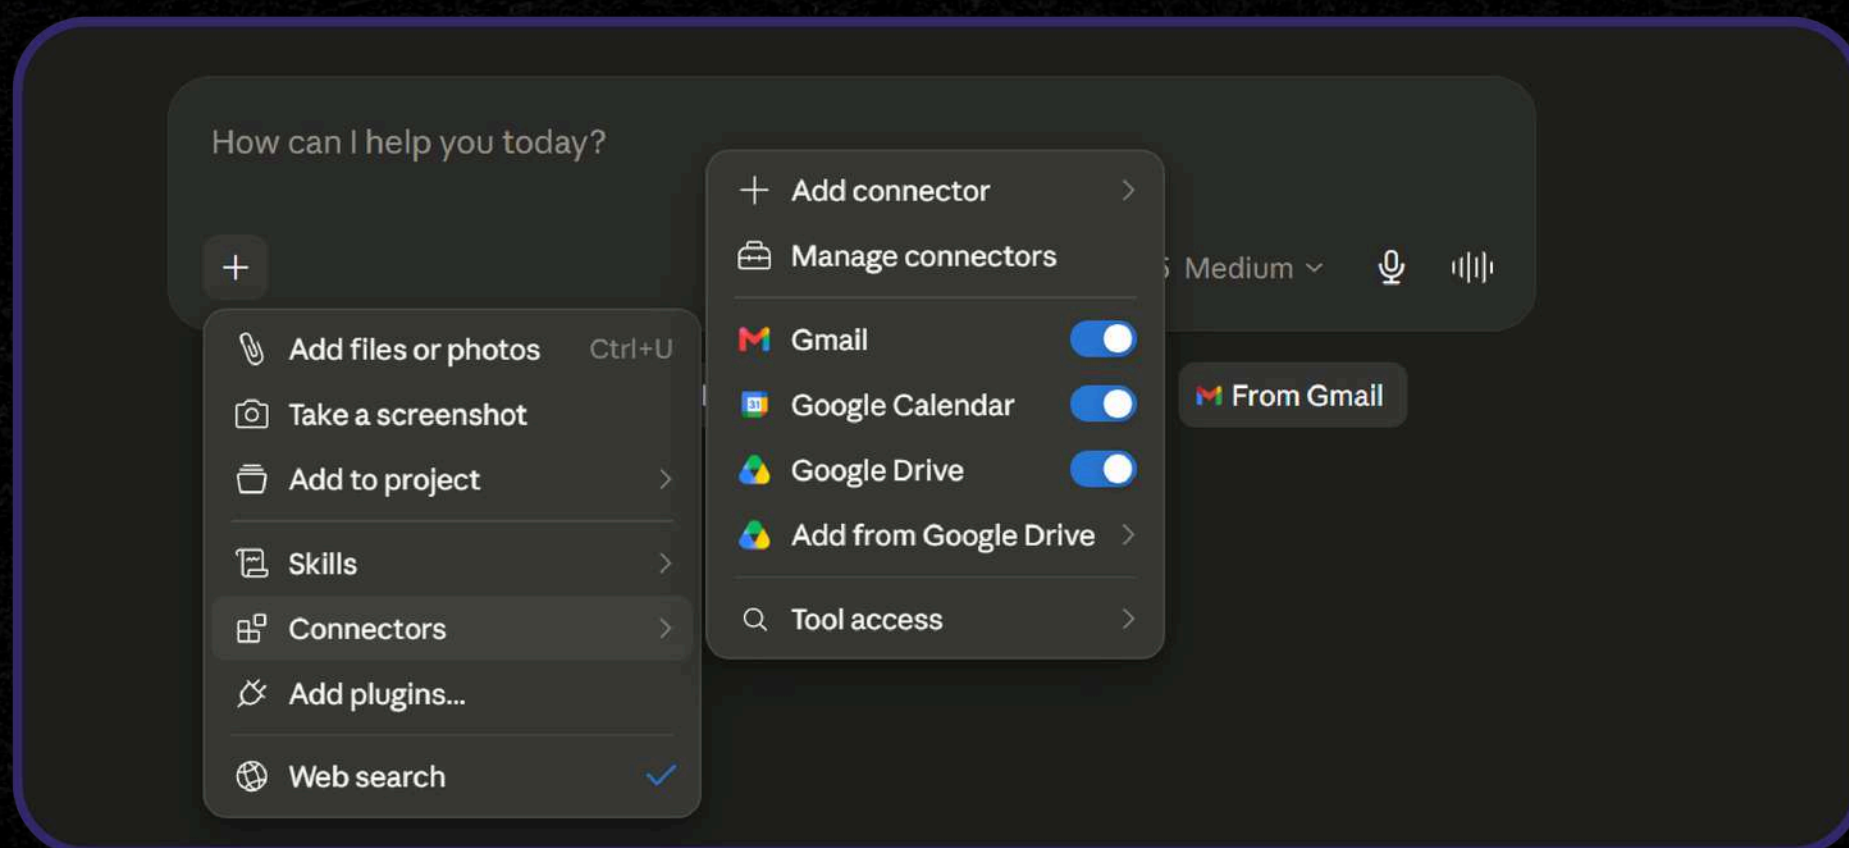

Setup –

Create a Scheduled Task, choose how often it should run, and define the desired output.

Connect

MCP Connectors allow Claude to securely access tools like GitHub, Google Drive, Slack, Notion, Figma, and Jira

Setup –

Open Settings → Connectors, connect your accounts, and grant Claude permission to access the tools you use.
